**Dermatology**

**Aims**

To increase knowledge of common dermatological conditions

**Objective**

To have interactive discussion about eczema, psoriasis and acne.  
To learn difference between cream, lotions, pastes and potions.

**Comments / Feedback**

Very good. Involved the curriculum.

Really useful.

Very good comprehensive session.

Learnt a lot thanks.

Good to have a consultant speak. Great talks.

Dr Preston - excellent, useful tips. Good hand on with cream.

Really excellent session.

Really, really helpful.

Excellent.

Dermatology session was great - I learnt loads.

Extremely useful. Could not fault it.

Very good. One of the best presentations we've had. Excellent.

Excellent consultant presentation. Thank you for organizing this.

Excellent. Very relevant with clear instructions as in what to use and when to refer.

Dr Preston was very helpful and made session interactive. Good to bring in samples for us to see. Only small slide presentation from VTS, but obviously time was an issue.

Very useful. Good idea having creams in.

Very good.

Really good session. Very useful.

Overall excellent. Dr Preston was very good. Would have liked more time on Nick & Gemma's part about individual creams/ointments.

Excellent session - best since starting.

Excellent and informative. Good background information in Dermatology/treatments.

Very appropriate and relevant topic data.

Excellent.

Very good afternoon. Useful to be able to do question and answer with consultant.  
Good advice on how to apply creams.  
Very good and useful dermatologist.
