Comments / Feedback

Very good

Very good

Very good

Good case discussions for registrar group. Nice 'hot topics'. Presentation – my group!

Very good presentation – interesting area and well presented. Very good to discuss cases and useful reassessing.

Good presentation on ethics. Hot topics useful. Useful discussion on cases.

Informative well prepared presentation. GPR group – cases discussion really useful.

Good presentation and discussion on 'double effect'. Valuable lessons.

Excellent presentations. Very educational.

Very useful.

Useful open discussion. Peer group great to interact with!

Good clear concise presentations. Good debate. I find the case discussions very useful.

Interesting discussion of assisted suicide. Good to learn about different cultures and religions.

Great to go through topical news stories.

Very useful information about legality issues regarding end of life discussions.

Informative ethical information. Useful to daily work with future as GP.

Very informative presentation especially as difficult topic. Though provoking. Good information on religion.

Good presentations, interesting topics.

Generally very helpful. At time the discussions during presentations can get off the point and detract from the presentation itself.

Very though provoking.

Informative. Interesting facts about different cultures/religions and helpful. Reassuring to discuss cases in registrar groups.

Handout good.
